making hard work easier

We are the top supplier for today's building material handling, making hard work easier.

For over 60 years, our tools and machines have been making your everyday work on the construction site easier. Thanks to many important ergonomic and efficiency-enhancing innovations, we are now world market leader and set the standards in building materials handling on construction sites and in concrete plants.

More than 180 employees find the optimal solution for you every day – worldwide at our locations in Germany, Great Britain, France, Italy, Poland, China, Korea, Canada and the USA. With more than 1,400 sales partners worldwide, including over 700 in Germany, you have a competent partner at your side wherever you are.

Since 2020, the entire group of companies has been climate-neutral.
