

Emission-free, low-noise and electrical

The Probst GREENLINE Family

For 60 years, our tools and machines have been making your daily work on the construction site easier. With the GREENLINE devices you can now make it quiet and emission-free: The usual quality and power from Probst with reliable electric drives.

Not only when working in city centres or residential areas – emission-free and low-noise construction site equipment is also an important contribution to occupational safety. Protect your employees and the environment from noise and exhaust emissions.

PAVER LAYING

VM-301-GREENLINE

Mechanical paver installation with 100% electric power

Six hours of paver installation – smooth running, low noise and no exhaust fumes. The world's first fully electric laying machine is designed for endurance. It is also of particular advantage when used in areas with stricter limits for exhaust and noise emissions, e.g. in underground car parks or near hospitals and schools.

Battery technology / Basic version:

- 2 lithium ion rechargeable batteries at 48 V, 105 Ah
- Total: 210 Ah / 10.1 kWh
- Recharging technology: 2 on-board chargers, each 48 V, 50 A
- Charging time on a 230 V power supply: approx. 4.6 h
- Charging time on a 400 V power supply: approx. 2.3 h
- Max. running time in laying operation up to 6 hours

Order-No. 51500024

JOINT FILLING

EASYFILL EF-H-GREENLINE

Joint filling with electric forward drive

With the EF-H-GREENLINE electric paver jointing device, the application of jointing material (dry or with water addition) is fast, quiet and emission-free. A great advantage when working in city centres or residential areas and an important contribution to occupational safety for the operator.

- Rigid, resistant brushes for optimal joint filling
- Device does not have to be pushed, only guided
- Continuous height adjustment of the brushes
- With one battery charge you can grout approx. 100 m² of surface in 40 minutes
- Powered by rechargeable 82V lithium-ion battery (exchangeable battery concept), additional batteries optionally available
- Scope of delivery: battery and charger, charging time approx. 75 min

Order-No. 51700008

VACUUM LAYING

SM-600

STONEMAGNET Attachment

Handy, powerful, battery powered – for laying non-porous stone slabs and concrete elements up to 600 kg.

Order-No. 52720006

PROFESSIONAL TOOLS

AL-43-SH-21

Hydraulic Block Cutter

Electro-hydraulically splitting stones at the push of a button – without dust, noise and dirty water. With battery drive.

Order-No. 51200052

VACUUM LAYING

SH-2500-GREENLINE

Vacuum Lifting Device

Powerful with battery drive. For predominantly non-porous concrete and natural stone elements up to 2,500 kg.

Order-No. 52400046

VACUUM LAYING

VPH-150

Vacuum Hand Laying Device

Flexible and powerful – for non-porous materials such as granite or concrete parts up to 150 kg. With battery drive.

Order-No. 52710008
